## Professional Summary

Experienced front-end developer with over 2.5 years of expertise in crafting captivating and functional user experiences. Proficient in **React.js**, **JavaScript (ES6+)**, **HTML5/CSS3**, and **Redux**. Skilled in creating efficient and reusable UI components with a focus on responsive design. Committed to delivering top-quality code and exceptional user experiences.

## Work Experience

**Software Developer** - *NATIONAL INFORMATICS CENTRE (NIC)* | Gangtok, Sikkim  
*September 2020 - March 2023*

NIC is India's premier information technology organization, serving as the government's technical backbone. NIC pioneers in providing cutting-edge digital solutions, infrastructure, and technology services to empower the nation's administrative and governance systems. Its steadfast commitment fuels digital transformation across various sectors, enhancing efficiency and citizen engagement.

## Roles and Responsibilities

- Engineered **10+ service-based software** for diverse government departments under the Ease of Doing Business initiative.
- Conducted **5+ comprehensive case studies**, driving innovative solutions for seamless migration of manual processes to online workflows.
- Developed key services like **labor registration, government employee ID issuance, restricted area permits for tourists, and various e-district services**.
- Functioned as **Master Admin and Application Support** for the Online Building Permission System, managing user privileges and workflow.
- Guided **successful migration** from manual to online operations through stakeholder training and state-specific feature incorporation.
